

El Pisco Peruano es el espiritu del Vino, porque tiene la ternura de un Niño, la imaginacion de una Mujer y la fortaleza de un Hombre...

**PISCO IS A CLEAR PERUVIAN BRANDY
DISTILLED FROM GRAPES.**

Señor's Pisco comes from the largest Pisco producing region in Peru, located just South of Lima in the Ica Valley. This land is home to a unique microclimate that allows grapes to thrive due to perfect conditions; year-round sunshine and heat and sweeping winds from the Pacific Ocean that chill the earth at night. A serious amount of work goes into growing these grapes that are fed with melted glacial waters from the Andes.

The origins of Pisco date back to 1613 to when Spanish settlers brought grape vines to Peru. Peruvian Pisco has come a long way since 1613, and is highly regulated to ensure that the final product represents the characters of the grape and terroir. Hence, there is only 1 production season that follows the harvest. Peruvian law does not allow water to correct the final product so all Peruvian Piscos are between 39-43% ABV and must be clear in colour.
